Skills

C++ | C | Python | JavaScript | React | Tailwind CSS | MySQL | Git | Figma | DSA | OS | OOP | HTML | CSS

Work Experience

Frontend Developer Intern

Jan'24 - March'24

Codsoft | Remote

- Gained valuable hands-on experience in frontend development through a remote internship at Codsoft..
- Successfully developed and deployed interactive projects, including a Tic-Tac-Toe game and puzzle, demonstrating proficiency in building user-friendly interfaces.
- Enhanced skills in HTML, CSS, and JavaScript, solidifying a strong foundation for frontend development.

Freelance Web Designer

Self-Employed

- Leveraged social media networking skills to secure a freelance web design project, showcasing initiative and entrepreneurial spirit.
- Designed and developed a portfolio website for a fellow designer within a tight three-day timeframe, demonstrating strong time management and project delivery skills.
- Successfully met client requirements, highlighting the ability to translate client vision into a functional and visually appealing website.

Projects

[RescuePaws - Animal Rescue Website \(Live\)](#)

- Led the design and development of RescuePaws, a comprehensive animal rescue website promoting pet adoption and lost pet recovery.
- Implemented user-centric features like an AI assistant for pet care, streamlined stray reporting with picture uploads, and searchable adoption listings.
- Created a dedicated "Lost & Found Pets" section with user-friendly tools to reunite lost pets with their families.
- Integrated volunteer opportunities and a local resource locator to connect users with animal shelters, veterinary hospitals, and volunteer organizations.
- Ensured a fully responsive design for seamless user experience across desktops, mobiles, and tablets.
- Click the title to visit RescuePaws and start helping animals!

[SvnTn.Ai: AI Text Assistant \(Live\)](#)

- Developed SvnTn.Ai, an AI-powered text assistant drawing inspiration from cutting-edge language models to provide users with intelligent text generation, translation, creative content creation, and informative question answering functionalities.
- Designed a user-friendly interface for seamless interaction with the AI assistant's capabilities, allowing users to generate text formats, translate languages, create diverse creative content formats, and find informative answers to their questions.
- Built with a modern development stack (ReactJS, CSS) and a robust API to ensure a smooth and responsive user experience.
- Implemented a pleasing color scheme and carefully chosen fonts to optimize readability and user comfort during extended use sessions.
- Ensured a visually appealing interface through thoughtful design choices, creating a user experience that is both functional and aesthetically pleasing.
- Click the title to interact with SvnTn.Ai, your AI text assistant!

Education

Delhi Institute of Higher Education, India

2022 - 2025

- BCA | CGPA: 7.8 (till IIIrd semester)
